

Visiting scientist to focus on marine geohazard research and data

Submitted by Duncan Lowrie Thu, 2019-10-24 16:21

Dr. Phil Hill, former director at the Geological Survey of Canada's Pacific division, is ONC's latest visiting scientist. Hill has a long-standing connection with ONC—he was one of the original principal investigators of ONC's inshore observatory project proposal and the [Delta Dynamics platform](#)—and is looking forward to using ONC data to advance his research on marine geohazards, including submarine landslides and related processes.

Read more about Dr. Hill [here](#).

Follow Dr. Hill on Twitter at [@pgcphil](#).
